

INTERACTIVE

Landing Page

Built a circular solution wheel with interactive hover effects so users can easily explore all seven offerings in one clean, engaging view.

Dynamic & scroll-driven UX

- **Extended interactive structure:** Broadened the interactive elements seamlessly from the hero section into lower fold areas.
- **Scroll-triggered motion:** Integrated responsive card movements aligned with user scrolling to keep the browsing flow dynamic.
- **Context-rich visuals:** Embedded key contextual details and supporting imagery for every core feature to guide users effectively.
- **Unified flow:** Designed every interaction to feel cohesive, driving better immersion and higher overall engagement.
